

Spa element Harvia bench Basic

SMBB

Harvia spa benches are designed for optimal relaxation. The comfortable seat and high backrest create an experience that pleases your entire body. Thanks to their resistance to water and high-quality materials, Basic benches can be used all year round indoors at spas and wellness centres, as well as outdoors in gardens, on terraces, at pools etc. Harvia spa modules can also be customized to nearly any shape and size as per customer needs and requirements. Delivery content includes only spa module elements. Inner and outer tiles, door or other features are not included.

Key Features

- Suitable for indoor as well as outdoor use
- Customize the look and feel of the Bench as per your liking
- Support for built-in heating for additional comfort
- Durable, yet light construction
- Delivery content includes only spa module elements. Inner and outer tiles, door or other features are not included.
