

# Steam room Harvia Nord

SMNR2613

Harvia Nord steam room represents minimalistic Scandinavian design. Harvia Nord is a stylishly simplistic combination of a steam room and a shower area together. The goal is to create perfect moments of relaxation at homes and small business premises, such as beauty parlours and hotel rooms. The size of Nord steam room and shower can be customized as per your needs and requirements. Let the power of steam caress your body and mind.

## Key Features

- Easy and quick to install
- Customize the look and feel of the entire setup as per your liking
- Add optional heating support for steam room benches
- Durable, yet light construction
- Steam room module's thickness 100mm, without tiles
